The Lehigh University Department of Computer Science & Engineering congratulates Mike Spear, our latest NSF CAREER Award recipient. Mike joins the company of our five previous NSF CAREER Award winners.

**Michael Spear**  
Ph.D., Univ. of Rochester  
Scalable synchronization, parallel and distributed computing, operating systems, programming languages  
“CAREER: A Transactional Software Ecosystem”

**Brian D. Davison**  
Ph.D., Rutgers Univ.  
Web search, adversarial information retrieval, data mining, networking, machine learning  
“CAREER: Contextual Link Analysis”

**Hector Munoz-Avila**  
Ph.D., Univ. of Kaiserslautern  
Artificial intelligence, planning, case-based reasoning, decision support systems, digital games  

**Gang Tan**  
Ph.D., Princeton Univ.  
Software security, programming languages, software engineering, program verification  
“CAREER: User-Space Protection Domains for Compositional Information Security”

**Jeff Heflin**  
Ph.D., Univ. of Maryland - College Park  
Artificial intelligence, semantic web, information integration, ontologies, intelligent agents  
“CAREER: Theory of Distributed Ontologies and the Semantic Web”

**John Spletzer**  
Ph.D., Univ. of Pennsylvania  
Intelligent vehicle systems, assistive technologies, multi-robot systems  
“CAREER: Towards Autonomous Wheelchair Systems in Urban Environments”
